Serenade

Flat Clouds

CLOUD COLLECTION by G&S Acoustics are custom shaped, sound absorbing panels independently hung from the ceiling. CLOUD COLLECTION is great for large, open spaces because of the high level of sound absorption, as all surfaces of the panel are exposed for optimal absorption. Available in flat, custom shapes or as curved panels, CLOUD COLLECTION will add design, color and interest to your ceiling while effectively reducing sound levels.

KEY ATTRIBUTES

- Available with paint, fabric or white texture finish
- Standard and custom shapes and sizes are available
- Dynamic sound absorption from all surfaces of the Cloud with NRC ranging from 1.25 up to 1.50
- Combine Serenade Clouds into CloudClusters for even higher sound absorption

SERENADE - FLAT CLOUDS

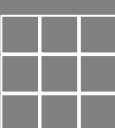

DESCRIPTION	CIRCLE	HEXAGON	CONVEX	CONCAVE	SQUARE	CUMULUS
						

All shapes are available in sizes up to 4'x8'

All shapes are available in 1" or 2" thickness

Custom shapes are available, please call for additional information

SERENADE - CLOUDCLUSTERS

CIRCLE   			HEXAGON   			CONVEX   		
CONCAVE   			SQUARE   			CUMULUS   		

SoundWave Curved Clouds

SOUNDWAVE - CURVED CLOUDS

DESCRIPTION		STANDARD SIZES	THICKNESS	PANEL ARC
LOW TIDE		4'x4', 4'x6' and 4'x8'	1"	132" radius
HIGH TIDE		4'x4', 4'x6' and 4'x8'	1"	132" radius

Custom sizes and curves are available, please call for additional information

FINISHES

Available with paint, fabric or white texture finish

Please contact us for additional information on mounting and finishes.

DETAILS

- Available with all sides finished or with a perimeter build up
- Clouds can be pre-cut during fabrication for light fixtures
- Works well in open ceiling applications where lay-in ceiling panels are not an option
