

RESOLUTE (R)

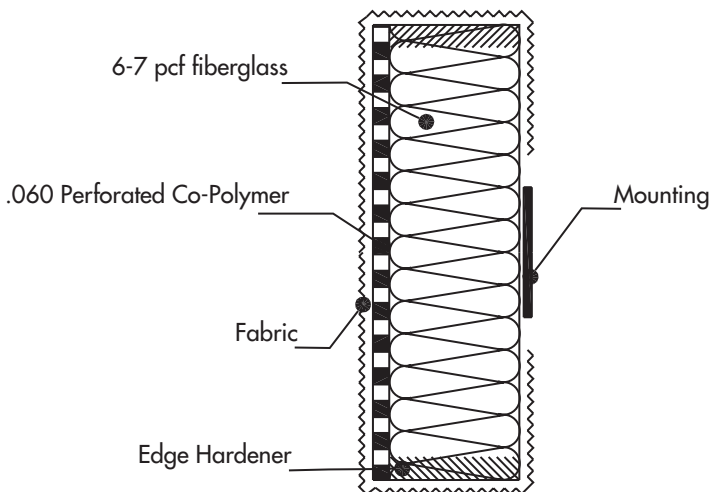

G&S Acoustics' Resolute (R) is a **high-impact, fabric-covered,** sound-absorbing wall panel. Below Resolute's fabric finish is a compound core of perforated .060 co-polymer facing sheet laminated to 6-7 pcf fiberglass.

Our Resolute panel will not dent. On impact, the .060 co-polymer cover bends and returns to its original position. The 6-7 pcf sub-core makes these panels **superior sound absorbers**. Due to the product's perforated facing sheet, we recommend using our standard fabric. Custom fabrics may require mock-up approval.

For locations that require the beauty of fabric as well as high-impact resistance, such as gymnasiums, corridors, theaters and lobbies, choose our Resolute acoustical panel system.

CORE SECTION

CORE

Facing: Perforated .060 co-polymer
Backing: 6-7 pcf fiberglass, 1"-4" thick

SIZES

Custom sizes and shapes up to 4'x10'

MOUNTING

Adhesive, impaling clips, two-part Z-clips

FINISH

Fabric

EDGES

Square, radiused, beveled
Hardened

FLAMMABILITY

All components have a Class "A" rating per ASTM E84

SOUND ABSORPTION

Hz	125	250	500	1000	2000	4000	N.R.C.
R 1	.05	.26	.82	1.08	1.05	1.02	.80
R 2	.46	.76	1.07	1.05	1.07	.99	1.00

Note: NRC test results based on our standard acoustically transparent fabric. Results may vary with other fabrics.
