

aCapella SCORES - Wall Panels

Adhesive - Wall Installation

APPLICATION:

For wall mounting aCapella Scores with adhesive on painted or primed drywall.

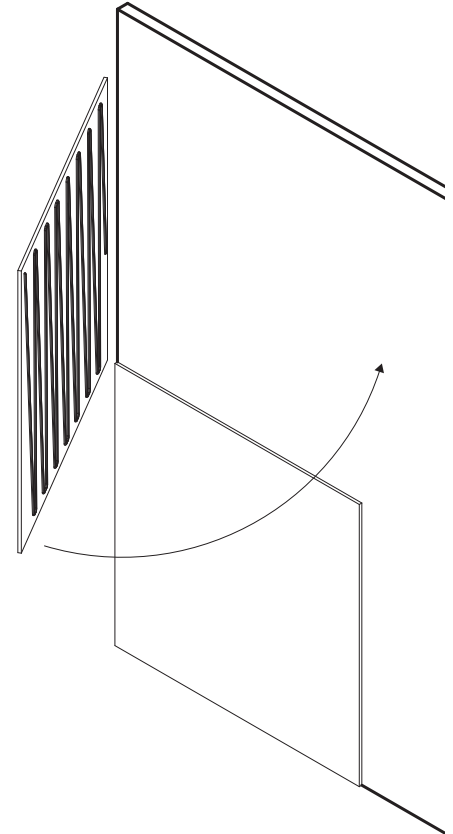

TOOLS NEEDED:

Heavy Bodied Water-Based Adhesive Henry 440 or equal, Utility Knife, Straight Edge

INSTALLATION INSTRUCTIONS:

1. Lay the Score panel face down on a flat, clean surface.
Note: Back side of each Score panel should be clearly labeled. Follow the directional label on the back of the panel for installation orientation. All panels should be installed with the same orientation.
2. Apply a 1/4" bead of heavy bodied water-based adhesive to the back of each Score panel in a zig zag pattern as shown below. Cover the entire wall panel, keeping adhesive 1/2" away from each edge.
3. Being careful not to touch the adhesive, lift the Score panels in place. Apply panel to the wall, pressing firmly on the front face of the panel to engage the adhesive.
4. To ensure the Score panels are evenly secured, apply pressure with hands moving them from center to outer edge of each wall panel.
5. Use a straight edge and utility knife to cut Score panels to fit around odd angles, lights and other penetrations.
6. Block as required for adhesive to set.
