

aCapella Verticals are **sound-absorbing ceiling baffles suspended** in single units or linked together to create **hanging mobile sculptures**. The intent of Verticals is to use the inner, solid panel and the outer, open panel to create vertically hanging decorative and acoustical systems. With Verticals, there is no waste as each component is cut from the other. Verticals are available in standard shapes as well as a wide variety of custom shapes. Mix and match any of the available 16 colors to create a unique design. Hang up to six Vertical units in one group.
