

aCapella TempoFins-Image (TFI)

Wall Panels

aCapella TempoFin-Images are wall mounted, **custom printed, polyester acoustical panels**, but with a twist, these fins are installed perpendicular to the wall. The fins are securely installed with mechanical fasteners, so they can extend up to 24" away from the wall and up to 108" high. When cut into custom shapes and designs, TempoFins add multiple dimensions to any flat wall. We recommend using aCapella Cotton, our white panel because the images are most vibrant. Any of the other 15 aCapella colors can be printed.

STANDARD SHAPES (custom shapes are available)

SOUND ABSORPTION - IN SABINS

Hz	125	250	500	1000	2000	4000	N.R.C.
TFI	1.17	1.62	3.21	4.36	6.05	6.96	.95

Note: NRC based on J-mount with 12" x 48" panels.

CORE

1/2" Recycled Polyester

SIZES

Custom sizes and shapes up to 2' x 9'

MOUNTING

Grip5: Direct Wall Mount

FINISH

Custom Printed

EDGES

Square

CLEANING

Bleach Cleanable (10:1)
Water-based/Solvent (WS)
Mold & Fungal Resistant (ASTM C1338)

FLAMMABILITY

All components have a Class "A" rating per ASTM E84

Note: Due to the recycled nature of the product, minor imperfections in the printing process can occur.
