

aCapella Floats-Image (AFCI) Clouds

aCapella Float-Images are **custom printed**, flat, custom shaped, **sound-absorbing ceiling clouds**. Each Float can hang from the ceiling at any angle, depending on the desired design and acoustical effect. Float-Images come in square, circular, triangular, rectangular, polygon and trapezoid shapes. Custom shapes are available. All shapes are available in solid or open panels. We recommend using aCapella Cotton, our white panel because the images are most vibrant. Any of the other 15 aCapella colors can be printed.
