

aCapella Verse-Bar Baffles use 2" high strips of matching or contrasting 1/2" thick aCapella, applied to either side of the top edge of each baffle, to add extra rigidity. Verse-Bar Baffles are designed to **isolate noise and absorb sound in open ceiling** environments. When installed, Verse-Bar Baffles should be spaced at least 3" apart and **hung individually** in open ceiling areas. Verse-Bar Baffles come in three designs: Range, Wave and Flat baffle shapes. Custom baffle shapes are also available. Verse-Bar Baffles are available in 16 colors.
