ACOUSTICS

CONTROLLING SOUND BEAUTIFULLY

**G&S Acoustics®** combines the science of acoustics with the beauty of fine finishes to create custom solutions for sound problems. Our extensive experience with custom designs, paints, prints and shapes will bring a unique design to interior spaces while enhancing the sound quality. Let us make acoustical solutions part of your next design project.

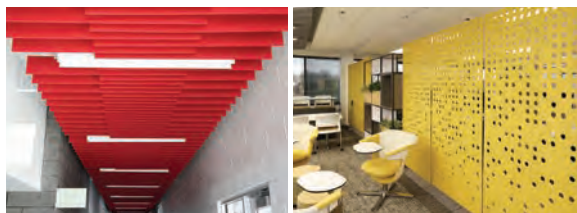

# aCapella

aCapella's recycled polyester panels absorb sound and provide custom design solutions with a wide array of colors. Custom printing is available on both thicknesses: 1/2" or 1". aCapella's polyester panels are durable, bleach cleanable, mold and fungal resistant and carry the DECLARE label. Applications include but are not limited to: offices, meeting rooms, hospitals, indoor pools and schools.

# Melody

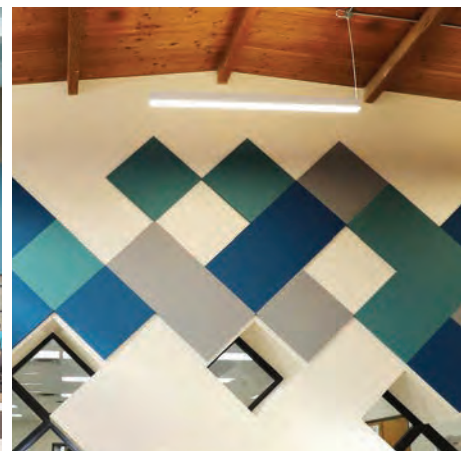

Melody are recycled polyester, sound absorbing, panels offering custom design solutions in 1" and 2" thick cores. Available in five colors, these cores can be custom cut, painted, fabric wrapped or custom printed. Melody panels are impact resistant, bleach cleanable, mold and fungal resistant and carry the DECLARE label. Applications include but are not limited to: hospitals, gymnasiums, arenas, open ceilings, indoor pools and schools.

## WALL PANELS

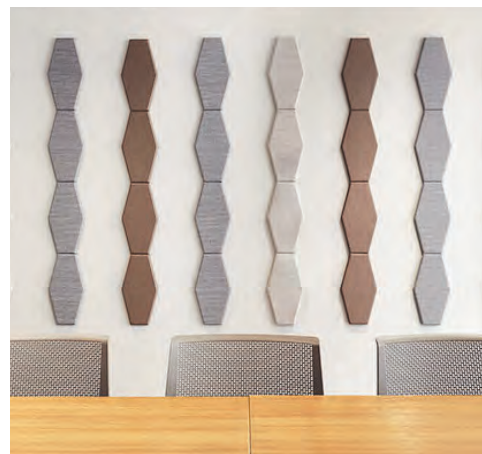

G&S Acoustics offers economic, standard and custom designed wall products that fit interior acoustical requirements and design expectations. Finished with fabric, paint, scrim or custom printing, G&S wall panels offer many unique custom designs.

## CUSTOM APPLICATIONS

From cutting to layout to finishes, G&S Acoustics' custom products create the unique designs envisioned by our clients. Our clients have bold design ideas; and we create custom products. We will work with you to create your design using one of our products or a product you envision. Bring us your ideas.

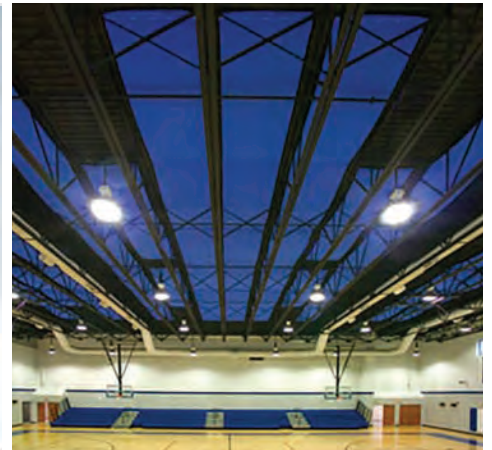

## CEILING PRODUCTS

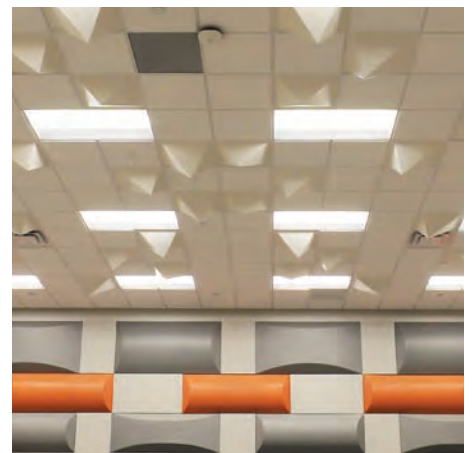

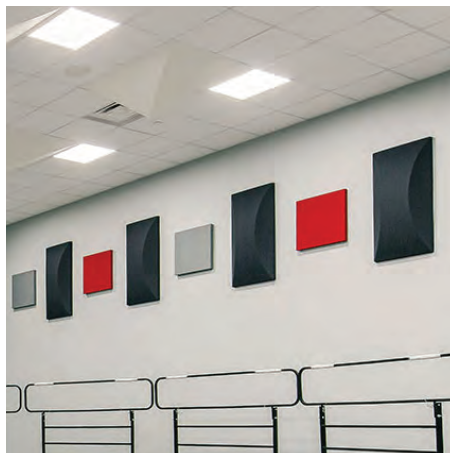

Think up! G&S Acoustics has a wide variety of suspended or direct mounted ceiling products. Baffles, Banners and Clouds; along with ceiling Tiles, deliver sound control and interior design to large, open spaces. Ceiling products are lightweight, durable and available in custom applications that add design and color to interior spaces.

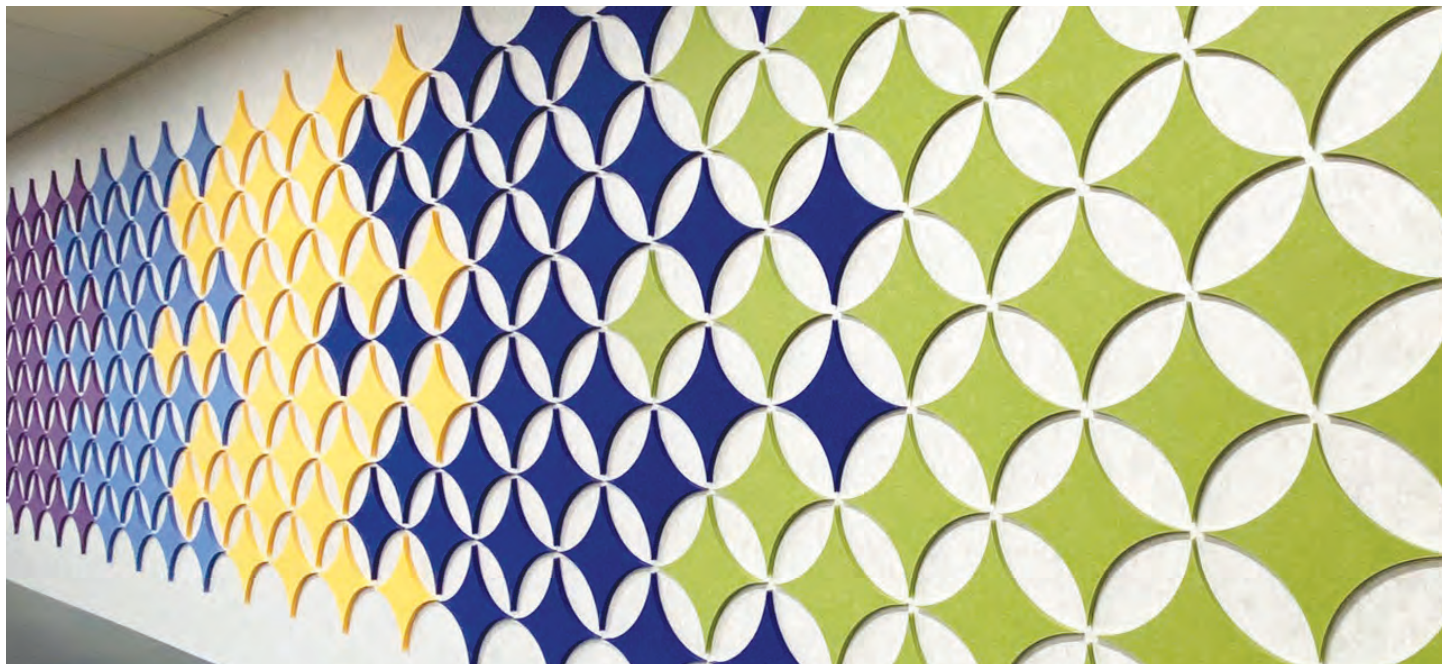

## SOUND DIFFUSERS

Because sound quality is important, band, choir, and concert halls need sound diffusion. G&S has a wide selection of wall and ceiling diffusers designed to diffuse sound and absorb low frequencies to improve the listening experience.

## OUR GOAL

G&S Acoustics wants to create products that meet, or exceed, your design and acoustical requirements.

Let us help you!
