

aCapella SlatWorks (SWW)

Wall Panels

aCapella SlatWorks wall panels using our Woodwinds finish, has the look of wood slats, but they offer acoustical absorption without the need of additional sound absorbing materials. In addition, these panels are not open, they are delivered with a solid backing that offers a visual barrier and an enhanced acoustical performance.

Easy to install and trim, SlatWorks recycled polyester panels are ideal for any interior space that requires the linear look offered by SlatWorks. This look can change according to the width of the linear elements, shown on page 2. For linear elements select from one of the Woodwinds Collection wood patterns, or select a solid color from the aCapella line of 17 colors. The solid backing sheets are offered in all the aCapella colors.

SAMPLE PATTERN

*Other patterns available.

SOUND ABSORPTION

Hz	125	250	500	1000	2000	4000	N.R.C.
SWW	.01	.10	.42	.83	1.05	1.10	.60

Note: NRC based on Type A Mounting (FWW).
