

aCapella Verse Baffles are designed for **isolating noise and absorbing sound in open ceiling** environments such as office spaces, restaurants, lobbies and classrooms. The baffles are spaced at least 3" apart and **hung individually** from existing ceiling grid systems, roof decks or bar joists in open ceiling areas. Verse Baffles come in three designs: Range, Wave and Flat baffle shapes. Custom baffle shapes are also available. Verse Baffles add color with the use of 16 bold and bright color options.

**MOUNTING SYSTEMS**

**SOUND ABSORPTION - IN SABINS**

Hz	125	250	500	1000	2000	4000	N.R.C.
