

aCapella BoxBar Baffles are box shaped recycled polyester baffles available up to 8' long. They are individually installed and spaced across ceilings with cables. Replicating the appearance of exposed beams, aCapella BoxBar Baffles are designed to absorb sound and create design elements. The baffles are available in any of our bold and bright aCapella colors, or any color from our Woodwinds Collection, which will provide a woodbeam inspired finish.

**MOUNTING SYSTEMS**
