reVerb, *Patterns in motion...*reVerb wall panels blend dynamic rhythm with high-performance sound absorption. Defined by their repeating sequences of varied widths, these panels introduce visual movement and depth—while enhancing acoustics. Featuring a design that allows flexible layout options, while supporting both standard sequences and customization to provide sound control across diverse environments.

reVerb offers six standard sequences and supports sequence customizations. With our expansive catalog of fabrics, reVerb offers an unlimited range of colors and textures.
