

CHIZEL

G&S
ACOUSTICS

CHIZEL, Color Designed Through Precision.

CHIZEL PET wall panels are expertly crafted to transform plain, flat walls into dynamic, design elements that elevate any interior space. Featuring precision-cut patterns and carefully angled reveals, these panels create a captivating visual interplay of depth, shadow, and contrasting colors.

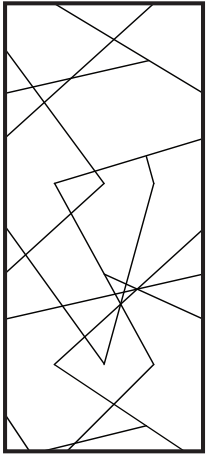

With an extensive collection of geometric and organic pattern families, CHIZEL not only beautifies walls but also enhances acoustic quality by absorbing sound effectively. Available in both single-color and duo-color options, these panels offer versatile design possibilities that create striking visual contrasts.

What truly sets CHIZEL apart is flexibility. Panels can be rotated or reflected to create entirely new patterns and compositions. This ability to reconfigure designs means that a single set of panels can continuously evolve, inspiring creativity and personalization. Suitable for various interior environments such as commercial offices, creative studios, Chizel’s four unique pattern families and multiple layout options ensure that every installation is unique and tailored to the designer’s vision.

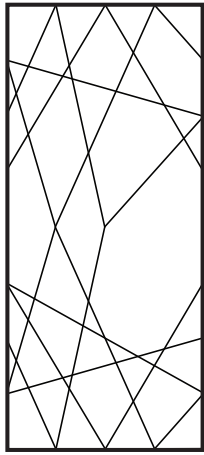

PRODUCT INFORMATION

Product	CHIZEL
Core	1” Recycled Polyester
Sizes	Custom sizes and shapes up to 4’ x 9’
Edges	Square
Finish	aCapella Colors
Flammability	All components have a Class “A” rating per ASTM E84
NRC	.75
Mounting	AM Clip and Adhesive

What will you create with CHIZEL?

Great spaces start with great ideas. Whether you're exploring a unique pattern, developing a custom composition, or defining the character of an entire space, Chizel provides a new canvas for creativity. When you're ready to bring your vision to life, we're ready to help.

Four Pattern Families. Endless Possibilities.

ROTATE

Turn patterns to create new visual expressions and directional movement.

REFLECT

Mirror designs to build balanced compositions or dynamic visual contrast.

REPEAT

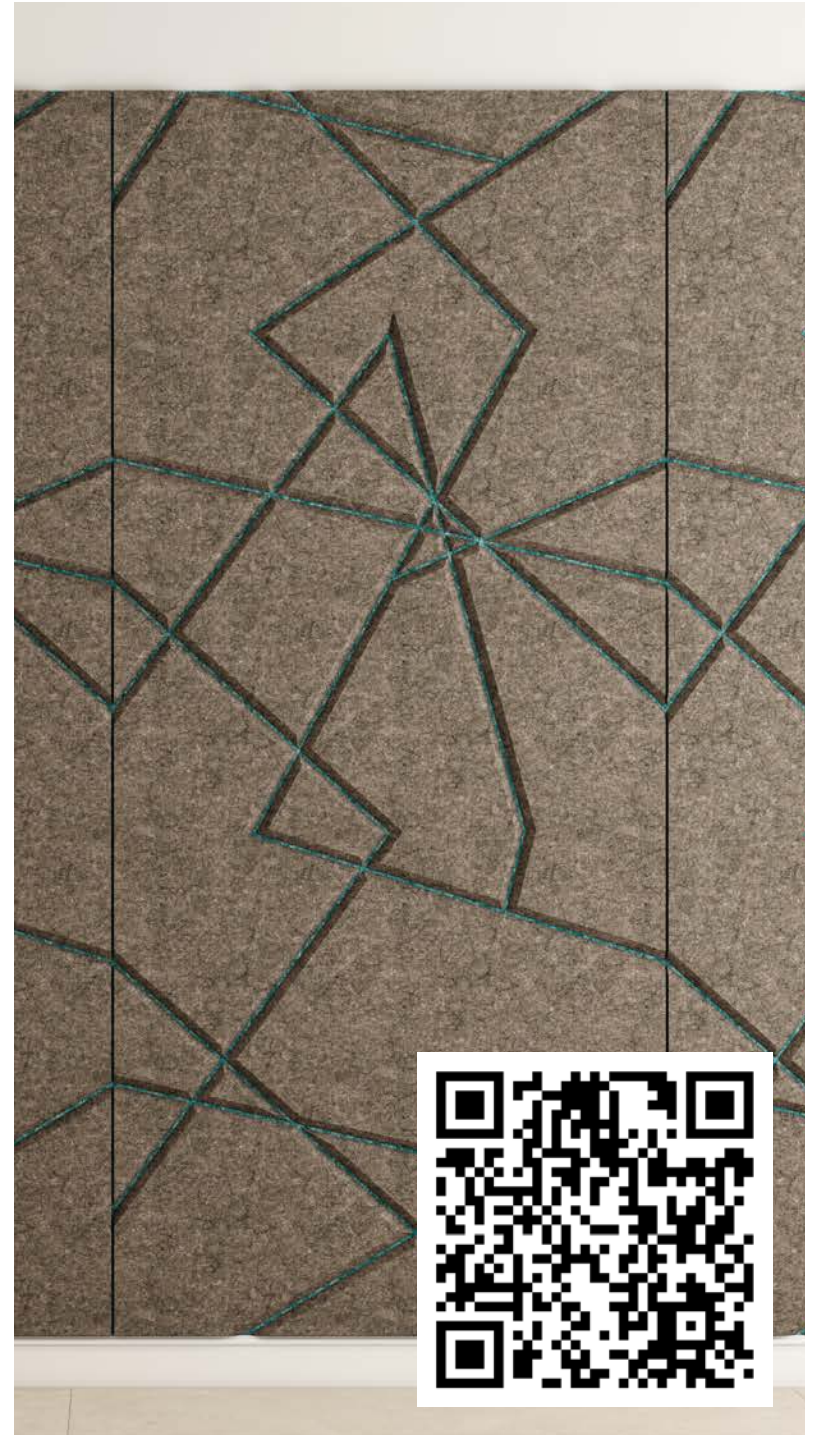

Extend patterns across multiple panels to create installations at any scale.

CUSTOM

Collaborate with our team to develop custom solutions tailored to your design vision.
