

CHIZEL wall panels bring texture, depth, and sound control together in one modern wall solution. Crafted from 1" thick PET, these panels feature precision-cut face designs that reveal layered dimension and create visual movement across the surface.

Available in a range of standard colors, panels can be specified in a solid color for a clean, refined look, or in dual-color construction for added contrast and impact.

SOUND ABSORPTION

Hz	125	250	500	1000	2000	4000	N.R.C.
CZ	.09	.21	.72	1.03	1.12	1.05	.75

Note: NRC based on Type A Mounting.

CORE

1" Recycled Polyester
